

**Welcome to the Wausau Prospectors Day Outing (sluicing for Gold and Diamonds) in Central Wisconsin September 8<sup>th</sup>, 2018**

This Day Outing will take place near Withee Wisconsin on the Black River on private property. This Outing we will be sluicing for Gold and Diamonds. The gold in the Black River is fine glacial gold. Not a lot but you will find it. You may be more likely to find more small diamonds than the gold. If you're sluicing for Diamonds you will want to use a sluice that is set up for that purpose.
